Illuminates Farmhouse Dreams by ILDL by Innovative Design Group

2 MINS READ

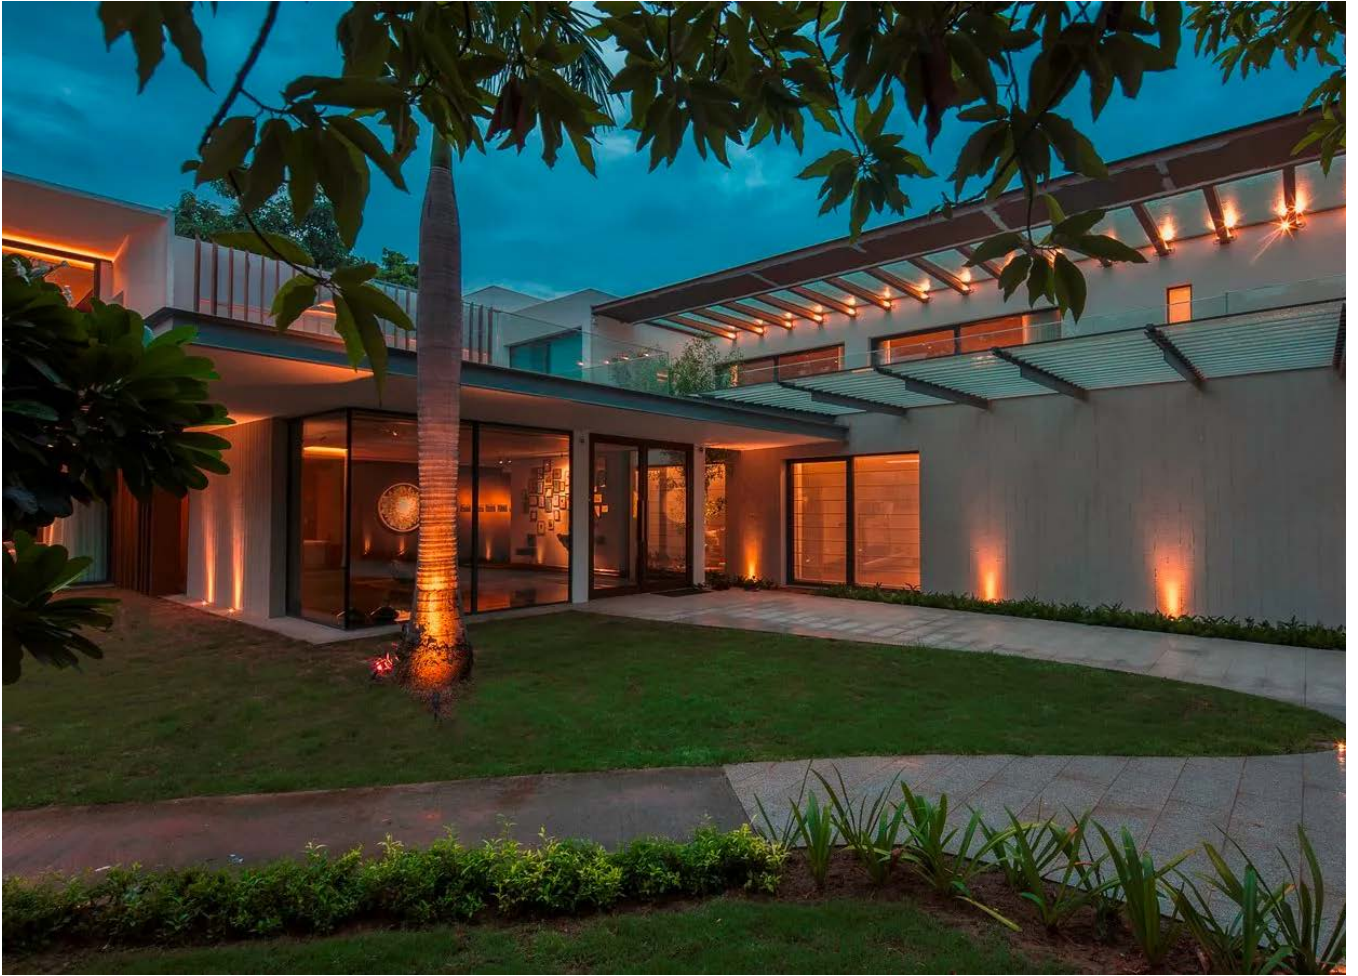

ILDL by Innovative Design Group (IDG), a pioneer in lighting and design, introduces a transformative outdoor lighting project that breathes new life into farmhouse aesthetics. This visionary endeavour seamlessly integrates light, architecture, and landscape design, exemplifying ILDL's commitment to create a cohesive and immersive outdoor experience.

Project Name- Illuminates Farmhouse Dreams

Studio Name- ILDL by Innovative Design Group

The farmhouse stands as a testament to design brilliance, highlighting a floating effect at the upper level with meticulously mounted linear fixtures at wind piles creating an artistic spectacle, while outer piles adorned with linear lighting enhance the floating effect, setting the stage for a truly immersive ambience.

ILDL's expertise in facade illumination takes centre stage in the project. Architectural lighting incorporates rafters, small spot fixtures, and a bonding effect that

gracefully diminishes light downwards. Customised 50-40mm spots, along a play of specific beam angles on scallop patterns, add architectural sophistication to the facade wall.

Landscape design plays a pivotal role in achieving harmony within the outdoor space. Tailored to the shape of trees, the landscape design utilizes fixtures with customized beam angles. Wider beam angles accentuate expansive trees, while markers and floor washers mounted at 3m intervals create a captivating path guiding element along the walkways.

The overall ambience is carefully curated to exude a vibe of subtle elegance, humility, and soothing tranquillity. Vertical rafters, define the facade's main points, establishing an inviting and calming environment. Furthermore, the space transforms into a magical atmosphere with 10-12 watts of light fixtures strategically mounted atop trees, creating enchanting shadows, and enhancing the natural beauty of the surroundings.

Uplighting brilliance takes the facade and mounting lights to remarkable heights casting reflections on the pool and infusing the outdoor space with sophistication. The annexe features a floating effect illuminated by linear lighting, seamlessly binding every element together in a captivating visual symphony.
