Planets Mini Lights by Innovative

Design Studio

2 MINS READ

Innovative Design Studio (IDS), India's exclusive partner for the premium Czech lighting brand Brokis, is proud to introduce the Planets MINI collection, a refined extension of the acclaimed Planets family of lights.

Project Name: Planets Mini Lights
Studio Name: Innovative Design Studio

©Innovative Design Studio

The Planets MINI collection brings the same elegant design language and functional versatilit
the original Planets series in a more compact, adaptable form that suits residential and intim
spaces. Designed by the award-winning duo Vrtiška & Žák, these luminaires embody simplicit
flexibility and contemporary craftsmanship.

- Compact Elegance: A reduced scale allows installation in spaces with lower ceilings foot
while maintaining a strong design identity.
- Flexible Arrangements: The signature system of calibrated counterweights and pulleys
enables effortless height adjustment and creative compositions, from a single pendant
multi-light installations.

©Innovative Design Studio

- Refined Craftsmanship: Each pendant features a round LED panel beneath a matte glas diffuser that preserves a clean silhouette and delivers soft, ambient light.
- Design Variations: Available in three elementary geometric shapes — sphere, cone and capsule — with elegant finishes including smoky grey matte, triplex opal matte and smo brown matte.

©Innovative Design Studio

This collection represents a thoughtful balance between artistic design and functional flexibil
deal for contemporary Indian interiors, hospitality projects and bespoke architectural spaces.
