Illuminates Farmhouse Dreams by ILDL by Innovative Design Group

2 MINS READ

ILDL by Innovative Design Group (IDG), a pioneer in lighting and design, introduces a transformative outdoor lighting project that breathes new life into farmhouse aesthetic. This visionary endeavour seamlessly integrates lights, architecture, and landscape design, exemplifying ILDL's commitment to creating a cohesive and immersive outdoor experience.

FUTURE T

©ILDL by Innovative Design Group

The farmhouse stands as a testament to design brilliance, highlighting a floating effect on the upper level with meticulously mounted linear fixtures at window piles creating an artistic spectacle, while outer piles adorned with linear lights enhance the floating effect setting the stage for a truly immersive ambience.

ILDL's expertise in facade illumination takes centre stage in the project. Accent lighting incorporates rafters, small spot fixtures, and a bonding effect that gracefully diminishes light downwards. Customised 50-40mm spots, along with a play of specific beam angles and scallop patterns, add architectural sophistication to the facade wall.

Landscape design plays a pivotal role in achieving harmony within the outdoor space. Tailored to the shape of trees, the landscape design utilizes fixtures with customized angles. Wider beam angles accentuate expansive trees, while markers and floor wash mounted at 3m intervals create a captivating path-guiding element along the walkway.

The overall ambience is carefully curated to exude a vibe of subtle elegance, humility soothing tranquillity. Vertical rafters, define the facade's main points, establishing an inviting and calming environment. Furthermore, the space transforms into a magical atmosphere with 10-12 watts of light fixtures strategically mounted atop trees creating enchanting shadows, and enhancing the natural beauty of the surroundings.

Uplighting brilliance takes the facade and mounting lights to remarkable heights cast reflections on the pool and infusing the outdoor space with sophistication. The annex features a floating effect illuminated by linear lights, seamlessly binding every element together in a captivating visual symphony.
